

List of Connection Charges

Enforced from 2026/01/01

Formulated and approved under the instructions of Official Document No. 11458004030 (Energy Administration) from Ministry of Economic Affairs on 2025/12/26.

The unit prices listed below all contain 5% of business tax according to related regulations of Business Tax Act. Total payable amounts for users who are by law exempted from business tax are obtained by dividing the total amount figure listed below with 1.05.

Table 1 Unit Price for Power Supply Capacity Installation

Usage Type		Unit	Unit price
Lighting Service		Per customer	NT\$6,050
Power Service	Low Voltage (LV)	Per kW	NT\$3,300
	High Voltage (HV)	Per kW	NT\$3,409
	Extra High Voltage (EHV) 69 KV	Per kW	NT\$3,101
	Extra High Voltage (EHV) 161 KV	Per kW	NT\$2,035
	Extra High Voltage (EHV) 345 KV	Per kW	NT\$841

Note :

1. The charge for non-summer month contract capacity is 75% of the unit price listed above.
2. The charge for semi-peak contract capacity is 75% of the unit price listed above.
3. The charge for Saturday semi-peak contract capacity is 20% of the unit price listed above.
4. The charge for off-peak contract capacity is 20% of the unit price listed above.
5. The charge for contract capacity of Electric Vehicle Charging Infrastructure Rate is 20% of the unit price listed above.

Table 2 Unit Price for new construction / Installation - costs calculated by length

Power supply type			Unit	Unit price
LV	Overhead		Per meter	NT\$190
	Underground		Per meter	NT\$959
HV	Overhead		Per meter	NT\$246
	Underground		Per meter	NT\$1,239
EHV	Overhead	69 KV	Per meter	NT\$2,018
		161 KV	Per meter	NT\$3,951
		345 KV	Per meter	NT\$7,623
	Underground	69 KV	Per meter	NT\$26,789
		161 KV	Per meter	NT\$39,613
		345 KV	Per meter	NT\$179,164

Table 3 Unit price for temporary power connection charges

Power supply type			Unit	Unit price
LV	Overhead		Per meter	NT\$928
	Underground		Per meter	NT\$4,645
HV	Overhead		Per meter	NT\$928
	Underground		Per meter	NT\$4,645
EHV	Overhead	69 KV	Per meter	NT\$5,045
		161 KV	Per meter	NT\$9,879
		345 KV	Per meter	NT\$19,601
	Underground	69 KV	Per meter	NT\$38,285
		161 KV	Per meter	NT\$56,593
		345 KV	Per meter	NT\$255,947

Note :

1. Miscellaneous work fees for power connection should be charged for temporary electricity connection which does not require new (additional/modified) construction: per 'Flat Lighting Service' user: \$68; per 'Meter Rate Lighting Service' user: \$268; per 'Power service' user: \$510. Additional power installation: exempted.
2. The charge for additional/modified construction (LV, HV) is 30% of the unit price listed above according to cable length.
3. Additional charge listed below shall apply if the additional/modified construction requires the installation of transformer; in the case of replacing transformer, 97% of the unit price of transformer or other devices which is (are) of equivalent type and capacity with the removed one (s) can be deducted from the installation fee.

Unit price for transformer installation

Type		Unit	Unit price
Pole Mounted Transformer	Under 25 kVA	Per appliance	NT\$27,025
	Under 50 kVA	Per appliance	NT\$41,032
	Under 100 kVA	Per appliance	NT\$61,586
	Under 167 kVA	Per appliance	NT\$94,319
Pad-mounted Transformer	Under 25 kVA	Per appliance	NT\$54,887
	Under 50 kVA	Per appliance	NT\$73,613
	Under 100 kVA	Per appliance	NT\$105,586
	Under 167 kVA	Per appliance	NT\$128,880

Table 4 Unit Price for new construction / Installation of Backup power supply - costs calculated by length

Power supply type			Unit	Unit price
LV	Overhead		Per meter	NT\$465
	Underground		Per meter	NT\$2,328
HV	Overhead		Per meter	NT\$465
	Underground		Per meter	NT\$2,328
EHV	Overhead	69 KV	Per meter	NT\$2,523
		161 KV	Per meter	NT\$4,938
		345 KV	Per meter	NT\$9,801
	Underground	69 KV	Per meter	NT\$26,789
		161 KV	Per meter	NT\$39,613
		345 KV	Per meter	NT\$179,164

Table 5 Unit Price for changing the installation of user-connection cable

Usage Type	Cable Type	Unit	Unit price
Flat lighting service & Meter rate lighting service except for streetlight	Overhead	Per customer	NT\$480
	Underground	Per customer	NT\$2,400
LV power service	Overhead	Per customer	NT\$1,596
	Underground	Per customer	NT\$7,981
HV power service	Overhead	Per customer	NT\$6,201
	Underground	Per customer	NT\$31,004

Table 6 Unit Price for changing point of common coupling (PCC) - new construction / Installation costs calculated by length

Power supply type			Unit	Unit price
LV	Overhead		Per meter	NT\$465
	Underground		Per meter	NT\$2,328
HV	Overhead		Per meter	NT\$465
	Underground		Per meter	NT\$2,328
EHV	Overhead	69 KV	Per meter	NT\$2,523
		161 KV	Per meter	NT\$4,938
		345 KV	Per meter	NT\$9,801
	Underground	69 KV	Per meter	NT\$26,789
		161 KV	Per meter	NT\$39,613
		345 KV	Per meter	NT\$179,164

Table 7 Unit Price for streetlight cable installation

Charge Description			Unit	Unit price
Switch only			Per customer connection point	NT\$840
Service drop line installed			Per customer connection point	NT\$2,400
Supply line installed	New construction	Overhead	Per meter	NT\$190
		Underground	Per meter	NT\$959
	Additional construction	Overhead	Per meter	NT\$70
		Underground	Per meter	NT\$360
	Utility pole replacement	Length requires to be changed for streetlight attachment	Per pole	NT\$4,000
		Length requires to be added for streetlight attachment	Per pole	NT\$4,600

Note :

1. \$2,400 shall be charged if the new/additional construction (or installation) fee charged for per user-connection point is less than \$2,400 (existing streetlights converted to the type of specific-line-controlling are not included).
2. The charge for the power usage of smart device/equipment with its line combined with streetlight is calculated according to the price listed above.

Table 8 Unit Price for power re-connection in the case of power suspension

Usage Type		Unit	Unit price
LV	Lightings	Per Customer	NT\$150
	Power	Per Customer	NT\$300
HV and above	Lightings & Power	Per Customer	NT\$840

Table 9 Unit Price for power re-connection in the case of contract-termination

Usage Type		Operation Type	Unit	Unit price
LV	Lightings	Electricity connection only	Per Customer	NT\$150
		Meter installation & Electricity connection	Per Customer	NT\$510
	Power	Electricity connection only	Per Customer	NT\$300
		Meter installation & Electricity connection	Per Customer	NT\$1,200
HV and above	Lightings & Power	Electricity connection only	Per Customer	NT\$840
		Meter installation & Electricity connection	Per Customer	NT\$2,700

Table 10 Unit price for Power supply equipment maintenance

Usage Type			Unit	Unit price
Meter Rate Lighting Service	Non Time-of-Use	Single-phase	Per customer/per month	NT\$75
		Three-phase	Per customer/per month	NT\$130
	Time-of-Use	Residential and commercial	Per customer/per month	NT\$75
		Standard	Per kW/per month	NT\$194
Power service	LV		Per kW/per month	NT\$194
	HV		Per kW/per month	NT\$191
	69 KV EHV		Per kW/per month	NT\$184
	161 KV EHV		Per kW/per month	NT\$181
	345 KV EHV		Per kW/per month	NT\$176

Note :

1. The charge for non-summer month contract capacity is 75% of the unit price listed above.
2. The charge for semi-peak contract capacity is 75% of the unit price listed above.
3. The charge for Saturday semi-peak contract capacity is 20% of the unit price listed above.
4. The charge for off-peak contract capacity is 20% of the unit price listed above.
5. The 'Flat Rate Lighting Service' charge and 'Flat Rate Power Service' charge are calculated according to the monthly payable electricity charge.
6. The charge for contract capacity of Electric Vehicle Charging Infrastructure Rate is 20% of the unit price listed above.
